Introducing LK DAILY MONEY MANAGEMENT Services

LK DAILY MONEY MANAGEMENT was created by Lewis Knopf, a financial systems executive, in response to a growing need: help for people who don't want to devote their time to routine financial matters or who are unable to do so.

If you're a senior, LK services mean being able to maintain your independence without facing complex paperwork for banking, insurance, health care and other purposes.

For the families of seniors, LK means knowing your loved ones' finances are responsibly managed, even if you're geographically distant or pressured for time.

If you're a busy professional or frequent traveler, LK offers reliable money management support, freeing you from routine, time-consuming obligations and worries.

For widows, divorcees, and others in transition who are not accustomed to handling their own financial affairs, LK offers full daily money management assistance—or our experts can set up a customized system for you and teach you to use it on your own.

“Lewis stepped in as trustee for a client who needed someone to manage her finances and he has been amazing, mediating between the children and successfully dealing with a myriad of personal, insurance and financial issues—a real godsend to my client.”

—Elder Law Attorney, Garden City, NY

“My husband and I are presently living in an assisted living facility. Lewis Knopf has been caring for us for several years. He handles all of our finances, which entails overseeing investments and paying bills. He visits us frequently and takes care of our special needs. We trust him completely and recommend him to anyone in need of his services.”

—90-Year-Old Resident of Assisted Living Facility
